Verse 2
She wants us to be what's going on in her mind
If she is to take over she must prevent unity
Oh how cold her life must be
She knows
She must destroy everything that we had prayed for
So here comes shame proclaiming her lies.

Music takes you round and round and round and round
Hold on to the love, hold on to the love.

I try and find another way to win
I try and make better ways
To the castle that I make
Whoever moon lights the way

Just let go and I will take you there
Now I wanna feel better than I might be
Want to see clearly that my eyes will see
